E. Procedures for reviewing, up-dating, modifying or terminating agreement:

- This agreement is effective from the date below.
- When any of the programs within this agreement undergo any changes relevant to this agreement, the agreement will be reviewed and revised as necessary by the Curriculum Committees of both the sending and receiving program. Minimally, the agreement will be reviewed at least once a year with particular attention directed to any curricular changes at the sending and/or receiving departments.
- Modification or termination of this agreement requires the approval of both Chief Academic Officers from both institutions.

Procedures for evaluating agreement, e.g., tracking the number of students who transfer under the articulation agreement and their success:

- The Department Chairpersons or their designee(s) will be expected to review student retention, progress to graduation including transitions between prerequisite and transfer courses, degree completion, and GPA.

Sending and receiving college procedures for publicizing agreement, e.g., college catalogs, transfer advisers, Websites, etc.:

- This articulation agreement will be publicized in print, web-based materials, and in marketing information
- Respective Transfer and Academic Advisors will be informed about and provided copies of this agreement
- Both institutions will provide information to their own recruitment staff members and will promote this agreement with eligible students.

Additional information regarding General Education:

- This agreement is deemed to be consistent with the CUNY Pathways General Education curriculum, and will be updated whenever necessary in keeping with changes in the Pathways curriculum.
- General Education at Queens College requires up to a total of twelve (12) credits of additional Pathways classes as part of the College Option. (This number is reduced to six (6) credits for students who have completed their Associate's Degree.)
- In addition, all students must take three (3) Writing Intensive (W) classes. (This number is reduced to two (2) classes for students who have completed their Associate's Degree.) A number of Pathway's classes at Queens College are also W classes, and most majors include one or more W classes, so the writing requirement need not add additional general education credits.
- Finally, there is a residency requirement: Students must complete at least 45 credits on Queens College campus to earn a Queens College degree.
