American Philosophical Society

Franklin Research Grants

From the website: Since 1933, the American Philosophical Society has awarded small grants to scholars in order to support the cost of research leading to publication in all areas of knowledge. The Franklin program is particularly designed to help meet the costs of travel to libraries and archives for research purposes; the purchase of microfilm, photocopies, or equivalent research materials; the costs associated with fieldwork; or laboratory research expenses.

Applicants are expected to have a doctorate or to have published work of doctoral character and quality. Ph.D. candidates are not eligible to apply, but the Society is particularly interested in supporting the work of young scholars who have recently received the doctorate. Independent scholars and faculty members at all four-year and two-year research and non-research institutions are welcome to apply provided that all eligibility guidelines are met. Funding is offered up to a maximum of \$6,000.
