Using “Backward Design” to Enhance Student Understanding

Join us for KCTL’s annual Winter Workshop on...

Using “Backward Design” to Enhance Student Understanding

Why do the best college professors think ‘backwards’?

In this workshop, facilitated by Peter Watkins (Temple University), participants will learn how to use big ideas and essential questions to engage students in rich learning experiences while working logically and intentionally towards carefully designed outcomes.

When: 2/8/16, 12:30pm
Where: V-219
Lunch will be served!

For questions or to RSVP, contact KCTL (kctl@kingsborough.edu; X3252).
